Hussein Asky
(*Full-Stack Developer*)

Country: Tanzania   **Email: info@askytech.co.tz**   **Phone: +255719993337 | 752849937**

Website: www.askytech.co.tz   **Linkedin: www.linkedin.com/in/hussein-asky**   GitHub:https://github.com/Hussein-Asky

Objective:

To leverage my expertise as a passionate Full-Stack Developer with skills in **HTML, CSS & frameworks, JavaScript, PHP, Firebase, MySQL**, and **React** to build responsive, user-friendly, and visually appealing **Websites & web applications**. I aim to deliver **clean, scalable, and well-documented code** while continuously enhancing my technical and design abilities. My goal is to contribute to **impact-full projects** — either collaboratively or independently and grow into a **top-tier full-stack developer** who creates seamless, interactive digital experiences.

Education:

Graduated, Bachelor of Science with Education (Mathematics & ICT) at MU, Gained strong foundations in **software development, ICT systems, and mathematical problem-solving**. Acquired skills in **programming, database design, technology integration, and web technologies** alongside strong analytical training and computational thinking >>Combined mathematical reasoning with ICT expertise to design **scalable, efficient, and logical solutions**..

Experience:

- Developed and deployed responsive, user-friendly web applications using **HTML, CSS, JavaScript, PHP, MySQL, and React**.
- Collaborated on projects to deliver **scalable and well-documented solutions** that improve user experience.
- Designed and implemented **clean UI/UX interfaces** with strong attention to detail and modern best practices.
- Gained experience in both **independent development** and **team collaboration**, ensuring timely and high-quality project delivery
- **Notable Projects:** Point Of Sales systems, Property Management Systems, Task manager System, Portfolio Website,School Website,

Technical / Hard skills:

•HTML5	•CSS3	•JavaScript	•Bootstrap	•C	•Java
• React	•C++	• Git & GitHub	•MySQL	•Cryptography&Network Security	

Soft skills:

- Communication Skills
- Collaboration & Teamwork
- Leader-ship
- Adaptability
- Attention to Detail
- Problem solving
- Time Management

Proficient Languages:

- Swahili (Native-Very Good)   • English (Professional Working Proficiency)
